POST OFFICE BOX Y
OAK RIDGE, TENNESSEE

October 24, 1958

Dr. J. Lederberg
Genetics Department
University of Wisconsin
Madison 6, Wisconsin

Dear Doctor Lederberg:

A number of appointments as Research Associate will be made for the year 1959-60 by the Biology Division of Oak Ridge National Laboratory. These appointments are designed to encourage the development of investigators in the basic fields of biology, biophysics, and biochemistry.

Associateships are available to outstanding candidates who expect to obtain a Ph.D. or M.D. degree between February and September, 1959. Applications from investigators who have recently received a doctoral degree will also be accepted. Candidates must be citizens of the United States and must have demonstrated definite interest and ability in fundamental research.

We will appreciate your calling this research associate program to the attention of students who, in your opinion, should be considered for these positions. An application form, including instructions for completion, is enclosed.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Alexander Hollaender", is written over a circular stamp.

Alexander Hollaender
Biology Division
